Fort Lee High School is a four-year comprehensive high school with an enrollment of 1140 students and a professional staff of 105. We believe the primary responsibility of the school is to create a safe and caring environment that encourages learning and personal fulfillment and promotes the growth of self-discipline and responsibility. Our goal is to provide each student with an education that will develop a high degree of individual excellence. We pride ourselves on the diversity of our population and of our programs. Fort Lee High School is home to three rigorous academy programs. Students are required to apply and complete an interview in order to be considered for each of the programs listed below.

**The Academy of Theatre Arts** is a small learning community that offers seriously committed performing arts students the opportunity to receive intensive instruction in acting and all other related areas of performing arts.

**The Academy of Finance** is a nationally recognized academy and is one of five academies founded under the National Academy Foundation. The Academy of Finance is a competitive program that instills 21st century skills for 9th, 10th, 11th, and 12th grade students and prepares students for post-secondary education and careers through academic learning and hands-on work experiences. Each AOF student completes a 200 hour summer internship between junior and senior year. Upon completion of the Academy of Finance Program, students receive a National Academy Foundation Certificate.

**The International Baccalaureate Program** works with schools, governments, and international organizations to develop challenging programs of international education and rigorous assessment. These programs encourage students across the world to become active, compassionate, and lifelong learners who understand that other people, with their differences, can also be right. The International Baccalaureate (IB) Diploma Program is a challenging two-year curriculum, primarily aimed at students aged 16 to 18. It leads to a qualification that is widely recognized by the world's leading universities. Students in all IB courses are required to take the corresponding IB Exams in May.

### Class Rank

The academic environment at Fort Lee High School is very challenging. The majority of our students meet the challenge by earning exemplary grades. The comparison fostered by a rank-in-class calculation may create unnecessary competition within the school. We believe that rank-in-class at Fort Lee High School does not convey the capability and achievement of our students. Therefore, we do not report class rank. Individual rank may only be released when required for merit scholarships.
